Method

Base

- Line the base of a 23cm loose bottomed tin with baking parchment.
- Put the bourbon biscuits and digestive biscuits in a plastic food bag and crush to crumbs using a rolling pin.
- Transfer the crumbs to a bowl, then pour over the melted butter. Mix thoroughly until the crumbs are completely coated.
- Tip them into the prepared tin and press firmly down into the base to create an even layer. Chill in the fridge for 1hr to set firmly

Filling

- Place the 2 tins of mandarins, liquid and all into a saucepan with the star anise, sugar, and mixed spice. Cook on a high heat until the quantity of liquid has reduced by half and the mandarins have started to break down
- Remove the star anise and blend until smooth with a stick blender. When it is smooth add the gelatine and blend again. Set aside to cool to between 25°C and 35°C.
- While the mandarin puree is cooling, whisk the cream in a bowl until soft peaks are formed.

- In a separate bowl beat the yogurt and cream cheese together until smooth. Then incorporate the cooled mandarin into the yogurt mix and beat again until smooth.
- Finally add in the cream 1/3 at a time until fully mixed
- Now pour onto the chilled base and refrigerate for 1 hour or until set

Jelly Top

- Place the 2 tins of mandarins liquid and all into a saucepan with the sugar. Cook on a high heat until the quantity of liquid has reduced by half and the mandarins have started to breakdown.
- Remove from the heat and blend until smooth with a stick blender. When smooth add in the gelatine and blend again
- Set aside to cool to between 25°C and 35°C. When it is cool pour over the set cheesecake
- Refrigerate for 1 more hour to set the jelly
